

Kevin, John:

This is the general arrangement I would like. Please check the dimensioning, especially of the o-ring groove. I propose using a 1/8" o-ring. The window tolerance is +/-0.010. Will a 1/8" section be sufficient?

Jonathan Kern

**Optical window dimensions: 3.000" diameter +/-0.010**

**0.500" thick +/-0.010**
