CHANGE DESCRIPTION (FROM/TO): D980536-B-C To D980536-C-C For update of schematic and revision.

The PSL Wiring Diagram document, D980535-B-C has been updated in D980535-C-C and should have a new title of PSL Rack Wiring Diagrams. It is no longer needed to specify Hanford 2K on this title as all PSL's are the same.

D980401-00-C drawing must be removed. The original to this drawing has been lost and the one currently in the DCC is the wrong drawing.

All document titles for the D980401 and D980400 need to be swapped. D980401 is the PSL Temperature Box, and D980400 is the PSL 80 MHZ VCO

D980401-A-C, reflects the actual installed hardware and is the most current revision
