Brian,

Waiver granted. Please attach this email to the traveler for the dowel pins.

Dennis

Hi Dennis,

The assembly of the actuators for the HAM-ISI requires the use of 4 dowel pins, two 1/8x3/8 and two 1/8x1/2.

These items are late (currently in an LHO bake load which started yesterday. Joe Hanson has ordered some and

we'd like to get a waiver to clean and air-bake these (overnight if possible), so as not to get more delays. There

would be 24 of these in the completed assembly.

Brian
