A night sky photograph showing a faint aurora borealis in shades of green and purple. A bright star is visible in the upper left. The bottom of the image shows the roof of a building with a stone chimney.

**Gravitational Wave Astronomy
North-West
7th Annual GWANW
Jun 24-26 2024**

Human Things

- Bathrooms and Water Stations are Behind You
- Evacuation Areas for Fire and Lock-down Emergencies
- Coffee and Tea mugs are available for your sustainable use
- Lunch, snacks, and dinner are provided for each day

Human Things

MON 6/24  **85°** /55°  0%

Partly sunny and pleasant; dry thunderstorms can spark new wildfires

RealFeel®	90°	Max UV Index	9 Very High
RealFeel Shade™	83°	Wind	SSE 5 mph

TUE 6/25  **94°** /62°  0%

Hot with plenty of sunshine

RealFeel®	98°	Max UV Index	9 Very High
RealFeel Shade™	91°	Wind	SE 4 mph

WED 6/26  **92°** /64°  0%

Hot with plenty of sunshine

RealFeel®	96°	Max UV Index	9 Very High
RealFeel Shade™	89°	Wind	SSW 7 mph

It's **HOT** in the desert.

The UV index is **VERY HIGH**
The wind is **NON-EXISTENT**
Fire Danger **HIGH**

When outside, we strongly recommend

- Wear a hat
- Wear sunscreen
- Have a personal source of water
- Drink that water
- Holler if you're feeling it and would like help
- Watch out for others

This is a safe space.

Take your time. Be patient. Listen.

Take a break.

Do whatever you need to do.

In here, we set aside the world for a moment to look

—and “listen” —

up.

Welcome!

LHO Site Tour 9:30a – 10:45a

Please split yourself into the following groups:

- **BEGINNER** “I’m new to gravitational wave physics, let alone the detector” [main location, control room; “highlight location” on to the roof]
- **INTERMEDIATE** “I do data analysis, and I think I know a bit about how the detector works, but I’d love to see in person, and I can take in *some* details.” [a bit of time in the control room, “highlight location” high-level, general walk through the LVEA]
- **EXPERT** “I’ve been to the observatories before, I’d love to hear what’s new since last year, and to pick your brain about some specific technical details.” [“highlight location” is the Electronics Racks and the HAM567 area]
- **I DON’T WANNA** “I need a break from people,” “My email inbox is on fire,” “It’s too hot outside,” “I’m too old for that” “I’d rather to talk with long-lost colleagues instead” Whatever the reason – you do you! LExC will remain open and cool.
- We have 4 tour guides, so we can split up one of the groups if one is big
Camilla Compton, Sheila Dwyer, Jeff Kissel, TJ Shaffer
- All tour guides can cover all levels, so Ask Us Anything!
- Please wear comfortable, close-toed shoes.
